

IC ENGINES WORKSHOP

(Duration: 3 hours)

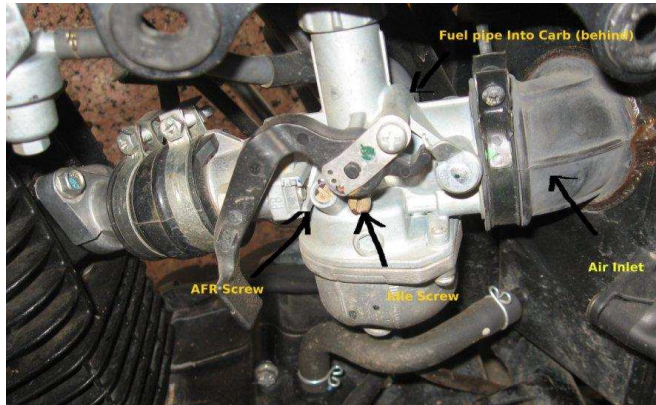

(sample image)

This ic engine workshop is divided into two sectors

1. Bike Dismantling (Duration : 1 hour)
2. Engine Dismantling(Duration : 2 hour)

BIKE DISMANTLING

In this session a model of any one of the bikes is dismantled(not completely) and various parts like carburetors, air filters etc., were shown. The duration for this section is approximately 1 hour (including demo on engine dismantling).

ENGINE DISMANTLING (Duration :2 hours)

In this session the engine is completely dismantled and various parts were described. A complete hands on experience provided to everyone in dismantling and assembling. This opportunity is given to those **who registers earlier.**

One engine will be given to one batch of 6 members for dismantling and assembly
