

PAPER PRESENTATION

Topics:

- Composite materials
- FEM modeling and simulation
- Automotive engineering
- Metal cutting
- IC Engines, Bio-Fuels
- Computer-based manufacturing technologies:
CNC, CAD, CAM, CIM
- Automation, Mechatronics, and Robotics.
- MEMS, Nano Technology
- Unconventional Energy
- Any other relevant topics.

General Information

- Papers must be prepared in IEEE format.
- Abstracts must be sent to mexplore2k16@gmail.com on or before 29th feb.
- Both authors presenting a paper must be registered for the symposium.
- Prizes will awarded to winners.
- Every participants will be issued with certificates.
- Maximum time for presentation is 8 mins and 2 mins for queries
